MISSING TOUBING CAR

The passing away of Henry E. Griswold at his home. No. 23 Coit street, on Saturday morning, makes another break in the rapidly thinning ranks of old older citizens. He was a native of Norwich and was in his first year.

Coming from a long line of New England ancestora, he was in many respects a typical New Englander. To the manor born, he remained a lifelong resident. No allurement of other fields ever drew him from the city of his birth. His early schooling and even earlier religious truining developed the sturdy qualities of independence, conscience and charcater which so marked the men of his generation. Apprenticed to his father, he learned from him the trade of carpenter, and,

The statement of the reorganization committee is as follows:

"A plan of reorganization has been for the Collins Water Wheel works. years he was foreman pattern-maker for the Collins Water Wheel works. Early in life he found a religious his death creates a felt vacancy in that body. For many years he has held membership in Uncas lodge, I. O. O. F., receiving all its honors and serv-ing as its chaplain, in which capacity he has officiated at the final services of over 50 brothers. In the stirring days following the war, when leading citizens of the United Workers formed the Provident association, he was chosen agent, a place which he filled with signal success. Here his earngentle consideration for others and faithful devotion to their welfare made his home life peculiarly companionable and attractive. His urbanity of manand attractive. His urbanity of manner was a source of pleasure to a wide circle of friends. Called to pass through deep affiction through the severing of home ties by the loss of those he loved, his faith still held clear and strong. No doubt ever clouded his vision or made his steps falter. He looked confidently forward to a blest reunion in a home not made with hands eternal in the heavens. So hands eternal in the heavens. So closed a useful, well spent life, with well-won victory and peace.

He leaves a wife, Harriet M. Trowbridge, one son, George H. Griswold of West Mystic, and two daughters, Mrs. W. R. Burt of Groton and Mrs. W. W. Collins of Bridgeport.

#### A Message To Thin, FOUND ABANDONED. Weak, Scrawny Folks

Solid, Healthy, Permanent Flesh
Thim, nervous, undeveloped men and
women everywhere are heard to say: I
can't understand why I do not get fat,
i eat plenty of good, nourishing food.
The reason is just this; You cannot get
fat, no matter how much you can, the
less your digestive organs assimiliate
the fat-making elements of your food
instead of passing them out through
the body as waste.

What is needed is a means of gently
urging the assimilative functions of
the stomach and intestines to absorb
the oils and fats and hand them over to
the blood, where they may reach the
starved, shrunken, run-down tissues,
and build them up. The thin person's
body is like a dry sponge—eager and
hungry for the fatty materials of
which it is being deprived by the fallure of the alimentary canal to take
them from the food. The best way to
overcome this sinful waste of fleshbuilding elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force
that is recommended so highly by physicians here and abroad. Take a little
Sargol fablet with every meal and notice how quickly your cheeks fill out
and relis of firm, healthy flesh are deposited over your body, covering each
bony angle and projecting point. Lee
& Osgood and other good druggist
have Sargol, or can get it from their
wholesalor, and will refund your money
if you are not satisfied with the gain in
